Task allocation

Task	Analysts	Reviewers	Target completion date	Completion type
Task 1	Alex	Aryaman	15th October	Draft
Task 2	Aryaman	Phi	16th October	Draft
Task 3	Phi	Aryaman, Alex	16th October	Draft
Task 4	Phi	Aryaman, Alex	20th October	Draft
Task 1	Alex	Aryaman, Phi	22th October	Final
Task 2	Aryaman	Phi, Alex	22th October	Final
Task 3	Phi	Aryaman, Alex	22th October	Final
Task 4	Phi, Aryaman, Alex	Phi, Aryaman, Alex	23th October	Final
Appendix	Aryaman	Phi, Alex	22th October	Draft
Final merging, formatting & reproducibility check	Alex	Phi, Aryaman	23th October	Final
Appendix	Aryaman	Phi, Alex	23th October	Final

Contribution Summary

This section be seen on github commit history and every member of the team confirms with this sentence that they have put approximately equal number of hours to create this project and are satisfied with the team effort.

Member name	Specific tasks performed	Hours contributed (approx.)
Alex	Task-1, Task-3,4 check, formatting and final checks	17 hrs
Aryaman	Task-2, Task-1,3,4 check, Appendix	16 hrs
Phi	Task-3 and 4, Task-2 check, final checks	18 hrs

Cross-review table

By signing below, you certify that you have reviewed the work of your teammates and that the final report represents a unified effort.

Task	Reviewed by	Key feedback provided
Task 1	Aryaman	Asked Alex to shorten the data description and cleaning process, additionally asked him to make some helpful plots that i can reference in task-2
Task 2	Phi	Change some of the formatting and task description, change the task flow and plots to match task-1
Task 3	Alex, Aryaman	Include more inline codes to cut some code chunks in order to not exceed 3 page limit, Add more comments in code chunks and format according to the task-1 and task-2

Task	Reviewed by	Key feedback provided
Task 4	Alex, Aryaman	Include more inline codes to cut some code chunks in order to not exceed 3 page limit, add some statement describing the differences between frequentist and baysian modeling
